WFCS 2006

6th IEEE International Workshop on Factory Communication Systems
WFCS'2006

WORK-IN-PROGRESS SESSION
Call for Contributions
Deadline: March 31, 2006

The work-in-progress session of the 6th IEEE International Workshop on Factory Communication Systems will be devoted to the presentation of recent ideas and new and ongoing works on the workshop topics presented below, with the prime goal of providing an opportunity to discuss evolving ideas and gather feedback from the factory communications community.

Contributions to the work-in-progress session of the 6th IEEE International Workshop on Factory Communication Systems are sought; contributors will be asked to give a short presentation of their work and to prepare a poster for the discussion forum that will be held after the presentations. Moreover, accepted submissions will be included in the workshop proceedings.

Submissions must be sent as camera-ready, PDF papers, formatted according to the conference style guides/templates and not exceeding 4 pages, through the conference electronic submission system. For further details, please consult the conference web pages.

Workshop Topics

Fieldbus networks	Real-time communication and apps
Industrial Ethernet networks	Web-based communication and apps
IP-based networks	Distributed application platforms
Industrial wireless networks	Safety and security in ind. comms
Automotive networks	Fault-tolerance in ind. comms
Embedded systems and networks	Config. tools and network mgt.
Building automation networks	Internetworking & interoperability
Wireless sensor networks	Case studies

Important Dates

Deadline for submission of WIP papers:	March 31, 2006
Notification of acceptance:	April 21, 2006
Deadline for submission of WIP final manuscripts:	May 2, 2006
